# About ReklamStore

ReklamStore is the leading digital advertising platform that offers data centric performance solutions for advertisers and publishers. We started our journey as Turkey's first display ad network in 2007. Since then we added affiliate, video, mobile and native advertising solutions to our offerings.

Also, we specialized in audience targeting and developed programmatic advertising platforms including demand side platform (DSP), supply side platform (SSP), and data management platform (DMP).

ReklamStore  
incorporates **50** employees

# DSP MANAGE YOUR ADS WITH SELF-SERVE DSP

We provide a self-serve campaign management product for advertisers, media buyers, and affiliates to target the right audience with the right ad model by analyzing users' demographics, interest, and behavior according to their web browsing history.

Most revenue-generating & demanding ad models

# DMP KNOWING YOUR CUSTOMER MATTERS

Your customers are constantly sending signals about what they're interested in and what they are willing to buy. Track those signals and know your audience better with our data management platform.

With ReklamStore's data management platform technology, advertisers can easily segment their target audience based on visits, search, operating system, location, device, frequency, and much more. We offer data with scale and depth with more than 29 million unique global profiles per month. And the data we provide is fully GDPR competent.

## Core Features

### Discover Your Real Target Audience & Engage

Once your marketing strategy identifies the target audience for your products, you can use equally targeted advertising to deliver the right promotional messages to prospective buyers.

### Maximise Click Through Rates On Your Campaigns

Your customers are constantly sending signals about what they're interested in and what they can be persuaded to buy. Track those signals and act on them via our data management platform

### Create Your Own Data Audience Segment

With ReklamStore's data management platform technology advertisers can easily segment their target audience based on visits, search, operating system, location, device, frequency, and much more.

### Target Via Your Own Media Buying Platform

ReklamStore DMP allows advertisers and agencies to target our special data segments through their own media buying platforms such as; Appnexus, Adform, Doubleclick etc.

# PERFORMANCE MARKETING

## Affiliate THE LEADING PERFORMANCE MARKETING NETWORK

Thanks to performance-based advertising, you know exactly how much return you get from your campaign budget. ReklamStore manages a powerful affiliate network, creating a platform from which both advertisers, publishers, and agencies can benefit.

### Lead Offers

Affiliates are paid depending on of how many visitors are sent to the merchant website and then sign up as leads.  
(Cost Per Lead)

### Sales Offers

Earn commissions from the merchant each time they will send a client to the merchant website, and that client makes an actual purchase.  
(Cost Per Sale)

### Install Offers

The brand is charged a fixed or bid rate only when the application is installed.  
(Cost Per Install)

### Action Offers

In this model of advertising, commission is paid when a user takes a specific action.  
(Cost Per Action CPA)

# MOBILE MARKETING

## Mobile ATTRACT YOUR AUDIENCE ON MOBILE

When it comes to mobile campaigns, brands have to face with extremely complicated targets. ReklamStore's mobile advertising technology makes all processes easier and more efficient by offering brands detailed targeting options and creative solutions to manage highly interactive campaigns at mobile.

### Cost Per Install (CPI) Campaigns

We provide offers that pay based on a Cost Per Install model. It's a big opportunity for app developers, mobile media buyers and affiliates to make money promoting apps or games.

### Reach Your Audience On Mobile

Our mobile ad network & programmatic media buying platforms enables clients to purchase inventory from the ReklamStore's mobile ad network and all major mobile traffic sources easily.

### Advanced Targeting Options

Partnering with hundreds of mobile apps and mobile publishers, we offer various data targeting options to advertisers to reach millions of users through mobile apps and websites.

### Detailed Reports

As ReklamStore, we believe that reports are not functional at all if they are non-analytical and contain only numeric data. This is why you can monitor and control your campaign efficiency easily with our advanced reporting panel.

### Mobile Web Projects

"I want to show a special ad to the user who visited my website on mobile devices."

### Performance Based

"I want to easily reach my defined targets with performance-based mobile advertising campaigns."

### Push Notification

"I want to show a special ad to the user who visited my website on mobile devices."

### In - App Ads

"I want my ads to be displayed in the specific areas on mobile apps."

Mobile Ads Based On Your Needs

# NATIVE MARKETING

## Native EXACT MATCH WITH THE USER EXPERIENCE

Native ads that are placed just like a natural part of the original content transfer the brand's message without disturbing the user. Native ads draw the user's attention as they adapt to the content they are used together and are more likely to interact.

ReklamStore's native ads are fully responsive which means native ads act like the content of that medium and fits into the design of the website. So, people can easily see and read native ads via PC, laptop, tablet, and smartphone with the same experience.

### Native Ads For Everyone

**Publishers & Content Marketers**

**Media or 360 Degree Agencies**
